### **Disbursement of Scholarships:**

Scholarships awarded to a successful applicant will be disbursed to the educational institute in which the recipient has been accepted or is enrolled. The educational institution will be directed to either disburse the funds to the recipient, or apply such funds to the recipient's tuition account, by the Training and Education Committee of APICDA.

Scholarships are disbursed by institute's terms by quarter or semester. After the first disbursement is awarded, future funding is awarded once APICDA verifies the student is in good academic standing. Good academic standing is defined as a minimum 2.0 GPA and completing a minimum 12 credits per term for full-time and a minimum 6 credits per term for part-time students.

Students must arrange to have a copy of their transcripts sent to APICDA within three weeks of the date that transcripts are made available. Students must also arrange to have a copy of their transcripts sent to APICDA upon completion of the academic year in which they received the scholarship. E-transcripts are accepted by APICDA if sent securely by the institution to [education@apicda.com](mailto:education@apicda.com).

### **Scholarship Forgiveness Guidelines:**

Students who do not meet scholarship requirements for full-time or part-time awards must follow Scholarship Forgiveness Guidelines.

A scholarship student who defaults on an APICDA scholarship will not be eligible for future funding until the following has been approved by APICDA's Training and Education Committee:

- Students who default in their first two years of college may request probation for a total of two terms.

- Probation request process consists of submitting a one-page letter to the Training and Education Manager that addresses: reason for default, corrective action to avoid situation again, and term that default occurred.
- Award received during probation will be reduced by 50% of original award. The Committee reserves the right to consider a different percentage based on the reason for the student's default.
- Students who default on probation, or do not request probation, must complete one term of college or university without funds from APICDA and meet the established guidelines of GPA and credit level. Official transcripts will be required to verify student's re-qualification term.

A scholarship recipient placed on student probation status by the educational institution in which the student is enrolled will be placed on probation by APICDA, for the purposes of receiving scholarship funds. If the probation status resulted from a death in the family or illness of the recipient or immediate family member during the term in question, such probation will be at APICDA's sole discretion. A recipient on probation may be allowed, at the Committee's discretion, one semester (or quarter) to increase his or her grade point average or credit hours, or both, to achieve good academic standing as defined by the educational institution in which the recipient is enrolled.

A recipient who fails to achieve at least a 2.0 grade point average during any semester (or quarter) may be placed on probation at the Committee's discretion. The Committee may set academic requirements for the recipient as it deems appropriate for the next semester (or quarter) as a condition of continued eligibility for the scholarship program.

***A student who is granted probation will received a reduced scholarship, up to half of the award amount the student had defaulted on. The T&E Committee has the right to make this decision based on the reason for the students' default.***
